Goals towards Reducing Monetary Loss	Status	ECD
1 Q3 2021 Analyze Improper Payment data to identify refinements to the Advana Improper Payment Tool detection criteria/integrity checks that would allow the identification and prevention of additional improper payments in a prepayment environment.	On-Track	Dec-21
2 Q3 2021 Ongoing evaluation of large complex contracts to ensure additional reviews take place before payment is made. In addition, continuous training for new and existing technicians performing entitlement and certification functions.	On-Track	Dec-21

Recovery Method	Brief Description of Plans to Recover Overpayments	Brief Description of Actions Taken to Recover Overpayments
1 Recovery Activity	Department Components conduct contract reconciliations by comparing invoices, receiving reports, and certified payments on vouchers as well as verifying the terms of the contract have been met and are properly recorded.	DoD Payment Recapture Audit and Recovery Activities (PRA) Plan
2 Recovery Activity	Continue capturing and reporting self and vendor identified improper payments. If EFT recall fails on an overpayment requiring collection, its input into DCDS and a demand letter is issued to vendor. Vendor returns funds or offset is initiated.	Self -Reported Overpayments
3 Recovery Activity	The Commercial Pay PRA template is a new requirement in the SoA Guidebook requiring the DoD Components to report quarterly on the actions taken on the identified overpayments. We are continuing the Department PRA Commercial pay working group.	DoD Implementation of PRA Plan

Accomplishments in Reducing Monetary Loss	Date
1 Implemented corrections to the Advana web application allowing the system to work correctly as intended to identify and prevent improper payments.	Jul-21
2 Improved the Advana web application for better searching, filtering and sorting of workload allowing better research capability in preventing improper payments.	Jul-21
