Amt(\$)	Root Cause of Monetary Loss	Root Cause Description	Mitigation Strategy	Brief Description of Mitigation Strategy and Anticipated Impact
\$1,180M	Overpayments outside the agency control that occurred because of an Inability to Access the Data/Information Needed.	Information needed to confirm payment accuracy is not available at the time the return is processed or when IRS does not have authority to enforce eligibility requirements when it does have the necessary information at the time returns are processed.	Statutory Change - Proposed changes to statute that would change conditions giving rise to improper payments	Verifying AOTC eligibility at time of filing will allow us to reduce improper payments.
\$693M	Overpayments outside the agency control that occurred because the Data/Information Needed Does Not Exist.	This root cause includes errors that IRS can only verify via audit since no data exists to support automated compliance checks.	Statutory Change - Proposed changes to statute that would change conditions giving rise to improper payments	Verifying AOTC eligibility at time of filing will allow IRS to reduce improper payments and to reduce taxpayer filing errors and educate taxpayers and paid preparers on the law and common filing errors.

Monetary Loss - Monetary loss to the Government includes amounts that should not have been paid and in theory should/could be recovered.
