Recovery Method	Brief Description of Plans to Recover Overpayments	Brief Description of Actions Taken to Recover Overpayments
1 Recovery Activity	States are required to recover child care payments that are the result of fraud and have discretion as to whether to recover misspent funds that were not the result of fraud, such as in cases of administrative error.	For overpayments identified through the error rate statistical sampling process, states worked to recover payments resulting from fraud and to the extent recoverable, those that were not the result of fraud.
2 Recovery Activity	For overpayments identified in Single Audits, states are subject to disallowances for any expenditures not made in accordance with CCDF regulations. Disallowances may be recovered via offset or repayment.	For overpayments identified in Single Audits for which disallowances for expenditures not made in accordance with CCDF regulation were sustained, the disallowances were recovered via offset or repayment.

Accomplishments in Reducing Monetary Loss		Date
1	Continued CCDF Program Integrity training and technical assistance targeting individual support for each required component of the methodology.	Jun-22
2	Continued Joint Case Reviews with states reporting in the FY 2022 review period which provides oversight of the IP methodology, assists in identifying areas for improvement, and allows grantees to self-identify areas needing correction.	Jun-22
3	Resumed virtual site visits continued targeted technical assistance and monthly calls to help states identify root causes and mitigation strategies, technical assistance needs, and focus discussions on policy/procedure implementation.	Jun-22

Amt(\$)	Root Cause of Monetary Loss	Root Cause Description	Mitigation Strategy	Brief Description of Mitigation Strategy and Anticipated Impact
\$142M	Overpayments outside the agency control that occurred because of a Failure to Access Data/Information Needed.	Administrative or process errors made by state or local agency resulted in overpayments.	Training – teaching a particular skill or type of behavior; refreshing on the proper processing methods.	Provide technical assistance to states and territories to improve compliance with procedural, statutory, and regulatory requirements, particularly as it relates to eligibility verification and documentation, thus reducing administrative errors.

**Monetary Loss** - Monetary loss to the Government includes amounts that should not have been paid and in theory should/could be recovered.
