Health and Human Services

Administration for Children and Families (ACF) - Head Start

Brief Program Description & summary of overpayment causes and barriers to prevention:

Head Start programs support children's growth through services centered around early learning and development, health, and family well-being. These services are available at no cost to children ages birth to 5 in eligible families. Federal funds are awarded to local recipients who then disburse the funds within the parameters of approved budget categories. Overpayments in the program primarily occur at the recipient level and are often the result of payments to vendors in which there was a failure to follow processes to ensure the payment was proper. Federal level limitations to preventing these overpayments exists because pre-approval of expenditures by funding recipients is not required.

**Historical Payment Rate and Amount (\$M)
(Overpayment as Percentage of Total Outlays)**

Discussion of Actions Taken in the Preceding Quarter and Actions Planned in the Following Quarter to Prevent Overpayments

The Office of Head Start provided targeted technical assistance to the funding recipients who had a payment error in the FY 2023 reporting year. The targeted technical assistance was in areas such as procurement, source documentation, cost allocation, allowability of cost and other fiscal challenges that led to the payment errors. The Office of Head Start plans to continue to provide training and technical assistance across all funding recipients in the aforementioned areas to reduce the likelihood of payment errors in the future.

Accomplishments in Reducing Overpayment

Date

		Date
1	Completed a Fraud Risk Assessment of the Head Start program to identify areas that may be susceptible to fraud and to develop strategies to reduce the likelihood of fraud and to detect fraud should it occur.	Jun-24
2	Continued to provide refresher sessions on identifying the correct type of payment and the appropriate root cause and root cause category for improper payments in order to develop targeted technical assistance to reduce the likelihood of future occurrence.	Jun-24
3	Refined and submitted the Improper Payment Measurement Sampling and Estimation Methodology Plan to improve the accuracy of the improper and unknown payment estimates.	Jun-24

Goals towards Reducing Overpayments		Status	ECD	Recovery Method	Brief Description of Plans to Recover Overpayments	Brief Description of Actions Taken to Recover Overpayments
1	Improve the efficiency and effectiveness of improper error rate identification and reporting.	Completed	Sep-24	1 Recovery Activity	The Office of Head Start plans to take recovery action on payment errors identified during improper payment reviews and continues to issue disallowances on errors discovered through HHS Office of Inspector General audits, program reviews, and Single Audits.	The Office of Head Start is working with the funding recipients to recover overpayments through repayment and offset of future funding.
2	Provide training and technical assistance across all funding recipients in the areas of procurement, source documentation, cost allocation, allowability of cost and other fiscal challenges to reduce the likelihood of payment errors in the future.	Completed	Sep-24			

Amt(\$)	Root Cause of Overpayment	Root Cause Description	Mitigation Strategy	Brief Description of Mitigation Strategy and Anticipated Impact
\$188M	Overpayments outside the agency control that occurred because of a Failure to Access Data/Information Needed.	Failure to disburse the funds within the parameters of approved budget categories and to follow processes to ensure the payment was proper.	Training teaching a particular skill or type of behavior; refreshing on the proper processing methods.	As errors were identified, targeted technical assistance was provided to address the root cause. Training is also being provided across funding recipients in key areas such as allowability of costs. These efforts are expected to reduce the occurrence of errors in the future.

Through the Health and Human Services' Administration for Children and Families, the Office of Head Start annually awards over \$10 billion in federal grants to approximately 2,100 funding recipients for the Head Start program. The Office of Head Start is committed to ensuring the most vulnerable families benefit from enrollment in the Head Start program. To accomplish this, the Office of Head Start strives to identify strategies to strengthen our monitoring and oversight of the Head Start program to ensure that funds are used for their intended and allowable purposes.
