**Education**  
Federal Pell Grant Program

## **Brief Program Description & summary of overpayment causes and barriers to prevention:**

The Pell Grant program provides need-based grants to low-income undergraduate and certain post baccalaureate students to promote access to postsecondary education. Root causes of Pell overpayments include incorrect calculation of Return of Title IV funds, failure to return unclaimed credit balances to the Department, and failure to meet satisfactory academic progress. Barriers include the program structure of the Pell program, which requires that funds pass through an intermediary Non-Federal entity before reaching the ultimate beneficiary (student). The statute provides FSA authority to require the third-party to impose certain internal controls or mitigation strategies, and FSA exercises this authority.

## **Historical Payment Rate and Amount (\$M) (Overpayment as Percentage of Total Outlays)**

## **Discussion of Actions Taken in the Preceding Quarter and Actions Planned in the Following Quarter to Prevent Overpayments**

In Q2, FSA continued to socialize and monitor submissions of the 2024-25 Free Application for Federal Student Aid (FAFSA) that utilizes the Federal Tax Information (FTI) Module (FTIM). FTIM is a new FSA system designed to ensure data security and compliance with IRS Publication 1075 requirements. Over the coming months, FSA will continue to incorporate feedback as we make additional improvements to the FAFSA form and processes; produce and update resources for families, institutions, counselors, and financial aid professionals; and keep the field updated on our progress. FSA published and delivered in Q2 and will continue to publish and deliver in Q3 free trainings, guidance, and resources for school administrators to target the root causes of IPs. For example, in Q2, FSA provided webinars that focused on proper administration of Title IV program funding. The trainings were recorded and can be accessed anytime on the FSA Training Center site. Also available on the FSA Training site are other helpful resources that include the FSA Handbook Glossary and FAFSA Simplification Act Key Terms, among others.

Accomplishments in Reducing Overpayment		Date
1	The 2025-26 FSA Handbook is now available. The guide aids college financial aid professionals for filing the FAFSA, verifying information, and making corrections and other changes. The Handbook consists of nine volumes and appendices.	Dec-24
2	FSA published the 2026-27 FAFSA Specifications Guide, which is designed to meet the needs of financial aid administrators, programmers, and data processing staff who want to incorporate electronic FAFSA functionality into their institutional systems.	Feb-25
3	FSA announced the 2025-26 FAFSA form reminder campaign. The 2025-26 FAFSA form is available and should be completed soon for those attending school between 7/1/25, and 6/30/26. The form can be complete and submitted electronically via fafsa.gov.	Mar-25

Goals towards Reducing Overpayments		Status	ECD	Recovery Method	Brief Description of Plans to Recover Overpayments	Brief Description of Actions Taken to Recover Overpayments
1	In Q2, FSA continues to monitor implementation of the authorities provided in the FUTURE Act and usage of the FUTURE ACT Direct Data Exchange (FA-DDX) to import U.S. income and tax information on the Free Application for Federal Student Aid (FAFSA) form. Direct access to income and tax information is expected to significantly reduce improper payments due to misreported income on the FAFSA.	On-Track	Sep-25	1	<b>Recovery Activity</b> ED will continue to use a system of oversight to help detect and recover improper payments and ensure compliance by participating parties. ED will establish accounts receivable and pursue collection for improper payments identified and deemed collectable.	For improper payments identified through oversight activities, in Q2 ED monitored accounts receivable and pursued collection for those deemed collectable. FSA will continue to track the overpayments collected and report the information in the year-end OMB Data Call.
				2	<b>Recovery Activity</b> Perform program reviews of schools for eligibility, financial responsibility, and administrative capability requirements. If applicable, FSA will assess the school a monetary liability, identify action(s) schools must take to resolve the IP, and pursue collection.	For overpayments identified through program reviews, in Q2 ED monitored accounts receivable and pursued collection for those receivables deemed collectable. FSA will continue to track the overpayments collected and report the information in the year-end OMB Data Call.
2	In Q2, FSA delivered various free trainings, guidance, and resources for school financial aid administrators to target and mitigate the root causes of IP. For example, FSA delivered a two-day training on written policies and procedures for effective administration of Title IV funds. FSA also published information on the 2025-26 Pell maximum awards. These types of trainings and publications provide significant guidance, training, and resources for thousands of school financial aid administrators.	On-Track	Sep-25	3	<b>Recovery Activity</b> Review Single Audits. Schools are required to develop CAPs for deficiencies. FSA will review & evaluate the school's CAPs. If applicable, FSA will assess the school a monetary liability, identify action(s) schools must take to resolve the IP, and pursue collection.	For overpayments identified through compliance audits, in Q2 ED monitored accounts receivable and pursued collection for those receivables deemed collectable. FSA will continue to track the overpayments collected and report the information in the year-end OMB Data Call.

Amt(\$)	Root Cause of Overpayment	Root Cause Description	Mitigation Strategy	Brief Description of Mitigation Strategy and Anticipated Impact
\$439M	Overpayments within agency control that occurred because of a Failure to Access Data/Information Needed.	Ineligibility for a Pell Grant and incorrect self-reporting of an applicant's information (misreported income) that leads to incorrect awards based on incorrect determination of aid eligibility amount.	Change Process – altering or updating a process or policy to prevent or correct error.	The implementation of the authorities provided in the FUTURE Act allows FSA to collect data directly from the IRS. With this new process, there is significantly less opportunity for recipients to misreport their income and therefore less opportunity for improper payments.
\$20M	Overpayments outside the agency control that occurred because of a Failure to Access Data/Information Needed.	Incorrect processing of student data by institutions; student account data changes not applied/processed correctly; satisfactory academic progress not achieved; incorrectly calculated return of student aid funds; and processing errors by servicer errors.	Training – teaching a particular skill or type of behavior; refreshing on the proper processing methods.	FSA will continue to offer training, resources, and guidance. FSA anticipates these activities to continue to produce estimates within FSA's tolerable IP band. FSA anticipates reduction, but IPs cannot be fully eliminated since payments are outside of FSA's direct control.
